

Transportation Pollution Liability, or TPL, is “over the road” pollution insurance. It covers insureds who need protection for pollution conditions caused by transportation. This coverage can also include loading/unloading should the insured’s cargo create a pollution condition.

Why is TPL important?

It provides Pollution coverage for:

- Spill Clean Up
- Third Party Property Damage
- Third Party Bodily Injury
- Defense
- TPL may also cover the insured in the event of a hauled fuel/chemical spill from a covered vehicle.

Optional coverage enhancements:

- Contractors Pollution Liability
- Non-owned disposal sites
- Pollution coverage for the insured’s premises.
- Pollution coverage on behalf of the insured for third party/common carrier transit.
- Misdelivery

Who buys it?

- Companies transporting goods
- Emergency Response Contractors
- Fuel/Oil Dealers
- Medical Waste Haulers
- Soil Excavation Contractors

Cost and applications:

- Premiums start at \$1,000.
- Limits are available from \$500,000.
- Required Applications:
Please go to the Applications section of our site (<https://b-h-a.com>) and download the Transportation Pollution Liability application.
